

What We're Doing Now

Chicopee Falls Project

- \$23.8 million project
- 74,500 ft. of new sewer pipe
- 20,000 ft. of new drain pipe
- 1,500 ft. of new water main
- 32 million CSO gallons eliminated

Roberts Pond/Irene Street

- \$1.8 million project
- 5,300 ft. of new sewer pipe
- 750 ft. of new drain pipe
- Installation of safety culvert

What's Next

Phase 3 Starting in 2013

- \$26.6 million project
- 60,000 ft. of new sewer pipe
- Separation of neighborhoods near Call, Montgomery & Sheridan Streets

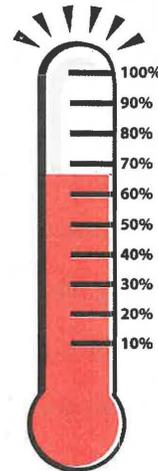

Rates

Sewer Fee: \$4.45 per 100 cubic feet for the first 1000 cubic feet, \$5.25 per 100 cubic feet thereafter.

Storm Fee: \$25.00/ quarter

Fast Facts In 2010

- 649 catch basins cleaned and labeled
- 89,111 feet of sewer main cleaned
- 32,148 feet of sewer main root removal
- 197 service calls answered
- 3 Billion gallons of wastewater treated

City of Chicopee Storm & Sewer Fee

2011 Update

Building Better Neighborhoods

Your Sewer and Storm Dollars at Work

What's the Long Term Plan?

As detailed in previous brochures, the Federal EPA mandates elimination of all Combined Sewer/Storm Overflows (CSO). Mixed sewage and rain water must be treated or eliminated before discharge to the Chicopee and Connecticut Rivers.

The CSO flow volume to be treated or eliminated is about 544 million gallons per year.

Sewer & Storm Fees are being used to fund CSO projects. This could mean \$200 million in sewer and drainage upgrades over a 20 year period, and this will ensure that present and future generations of residents will be able to benefit from improved infrastructure and a cleaner environment.

What's Been Done

*Investing in the future
utilizing low interest loans.*

1. Medina St. CSO Facility

- Treats 50 million CSO gallons per year

2. Sandy Hill Area

- 8,500 feet of new sewer and drain lines
- 2 million CSO gallons eliminated

3. Deady Bridge

- 40 million CSO gallons eliminated

4. Whittlesey Ave. Area

- 4,050 ft. of new sewer and drain lines.
- 1.2 million CSO gallons eliminated

5. East Main St. Area

- 16,200 ft. of new sewers
- 14 Million CSO gallons eliminated

6. Montgomery Street

- CSO eliminated

7. Drainage Stabilization

- \$3 million project
- 23 different locations
- Rehabilitates streams
- Repairs eroding hills
- Repairs drainage pipes

8. Ames/Grape/Front Street Area

- \$2 million project
- 7,000 ft of new sewer pipe
- 500 ft of new drain pipe
- 4.0 million CSO gallons eliminated

9. Fairview Sewer Separation

- \$16.6 million project
- 32 million CSO gallons eliminated
- 40,000 ft. of new sewer
- 14,000 ft. of new drain pipe
- 10,000 ft of new water main

10. Jones Ferry CSO Facility

- \$16.4 million project
- Treats 14 million CSO gallons per year

11. Upper Granby Road Area

- \$7.4 million project
- 21,150 ft of new sewer pipe
- 9,250 ft of new drain pipe
- 2.3 million CSO gallons eliminated

12. McKinstry Ave/Lorraine St

- \$3.0 million project
- 2.6 million CSO gallons eliminated
- 6,750 ft. of new drain pipe
- 2,750 ft. of new water main
