Permit Management System

Welcome to the City of Chicopee electronic Permit Management System. This system allows you to apply and pay online for permits, view sign-offs and enables a process review for numerous online permit submittals.

Please choose the appropriate tab for the type of permit or license you are seeking. Currently we have the Building and Fire Department's permits online. **The Building Department issues building, electrical, gas and plumbing permits. It also issues certificates of occupancy. You can also fill Applications for Fire Department Permits and Requests for Fire Department Inspections.** More permits and licenses will be added in the future.

If you are new to our system, we suggest you take a moment to read some information found on the GENERAL INFORMATION tab.

GENERAL INFORMATION BUILDING PERMITS **FIRE DEPARTMENT PERMITS**

Fire Department Permits and Requests for Inspections

[Apply for permits and inspections issued by the Fire Department.](#)

[Fire Department Permit Fees](#)

Please Note: Once you have filled out a permit or license application and submitted it electronically it is only in a preliminary stage.

Permit applications may be completed and paid for in person or you may choose to apply and pay online with a MasterCard, Discover card or electronic check. After issuance, certain permits are required be kept on the job site. You are responsible to produce a physical copy of the approved drawings and have the approved drawings on site.
